

# WASTEWATER TREATMENT SYSTEMS

Human needs and living standards are constantly changing with the increase in world population. Our mission is to ensure that the environment conditions are in line with changing population and living standards, and to contribute to people to live in a cleaner environment. Domestic and industrial wastewater is also a pollution-causing waste that has to be treated. We are manufacturers of Industrial and Domestic Waster and Wastewater Treatment Plants.

- NO ODOR
- MEASURES TAKEN AGAINST SEDIMENTS AND SLUDGE
- NO VACUUM TRUCK NEEDED

## Areas of Use

- Hotel, motel and resorts
- Villages and residential areas
- Sites
- Social facilities, gas stations and recreational facilities
- Factories, workshops, construction sites
- Military facilities, camps
- Mass housing and municipalities

## Superior Features

- High treatment efficiency of 98%
- Clear and odorless treated water supply
- Superior technology
- Strong construction and long life
- Portable compact unit
- Economic operation and maintenance
- Easy to increase total capacity with additional units
